- Text strings for all languages have been updated and corrections to some languages have been made (TRHDE-60, 133)

Additional Notes

- This release updates the Transformer HD android App to be fully compatible with Android OS version 8.1 and higher. It is highly recommended that users update to the latest operating system for the best experience. As a result Android Recommended min spec OS is being updated to Android 8 Oreo.

Known Issues

- Zoom level is set to minimum when rotated until user returns to the original rotation where they had been zoomed in (TRHDE-109)
- OCR Result is poor when loaded from a saved image instead of a live capture (TRHDE-142)
- On some devices with small screens OSD messages may not be visible from all device orientations (TRHDE-103)
- User must manually exit sub menu functions and cannot simply tap the preview screen to return to Camera Preview (TRHDE-99)
- Users cannot pan around a frozen or saved image (TRHDE-37)
- Android Double Tap and Drag highlight feature makes text invisible (TRHDE-140)
- Black and White Color mode shows up as Full Color in CCTV mode (TRHDE-157)
- On Screen Battery Indicator is sometimes incorrect when unplugging power from THD while streaming live view (TRHD-651)
