Under Step1: Click link for "Offline Update Instructions". Please read completely before proceeding.

Then click link for the device you want to update; Update-DaVinci-x.x.xx.exe Or Update-MerlinElite-x.x.xx .exe

Select "save link as" or "save target as" depending on the browser you are using and save the file to your Desktop.

Step 2:

Open the "Update-DaVinci-x.x.xx.exe" or "Update-MerlinElite-x.x.xx .exe" (depending on the device you are updating). All necessary files will be extracted to your desktop to a folder called "EV Updater".

You should see many of the following screens:

|--|

Installing EVDFU	Windows Security
Please wait while the Setup Wizard installs EVDFU. This may take several minutes. Status:	 Windows can't verify the publisher of this driver software Don't install this driver software You should check your manufacturer's website for updated driver software for your device. Install this driver software anyway Only install driver software obtained from your manufacturer's website or disc. Unsigned software from other sources may harm your computer or steal information.
dvanced Installer	See details Advanced Installer <back next=""> Cancel Cancel</back>

If you receive the windows warning, click Install anyway.....

樹 EVDFU Setup	Completing the EVDFU Setup Wizard	
		Connecting to Device
	< Back Finish Cancel	

Installation will complete, and the program should automatically open to this screen:

Step 3:

Put the device to be updated into firmware update mode as follows:

- A: Power off device. (Press and hold "Power" button until device is off)
- B: Press and hold the "Mode" button and then press and release the "Power" button once.
- C: Release the "Mode" button when the update menu appears.
- D: Press and release the "Mode" button to enter firmware update.

Step 4:

Plug the USB service cable into the device and into an available USB port on your computer. The program will then change to this:

🗣 Transformer: USB Firmware Update	er X
Device Name - F209D!	580
Select Firmware File (Click Brow	se to Select)
	Browse
Update]

Step 5:

Click Browse and navigate to your desktop and then to the "EV Updater" folder.

The screen should look similar to the following:

Select the Davinci-Vx.x.xx.bin or MerlinElite-Vx.x.xx.bin file depending on your device and click "Open"

Step 6:

Click the "update" button to begin the update process.

🗣 Transformer: USB Firmware Updater	Transformer: USB Firmware Updater
Device Name - F209D5B0	
Select Firmware File (Click Browse to Select)	Downloading
C:\Users\Administrator\Desktop\EV Updater\Da	
	13%
Browse	Development COCK/
	Download Speed - 606Kbps
Update	

Once the transfer is complete, you should get a "Firmware transfer complete" dialog box. Click "ok" on the dialog box.

Close the EVDFU application if you are finished updating devices.

Disconnect the USB cable from your PC and the device if you are finished.

Product Information

Once update is complete, on your device, navigate to your "Product Information" and verify that the version number is updated:
